CREEK STABILIZATION PROJECT FOR THE TRIBUTARY TO DEAD MAN'S RUN LOCATED IN TAYLOR PARK

PUBLIC INFORMATION MEETING

*Hosted by the City of Lincoln
and The Flatwater Group, Inc.*

TUESDAY, APRIL 25

6:30 - 7:30 PM

This is a creek stabilization design project of the tributary to Dead Man's Run located from approximately Mesaverde Drive downstream through Taylor Park to Taylor Park Drive, Lincoln, Nebraska. The project includes analysis of the existing stream conditions, review of the associated hydrology and hydraulics, and development of engineering design for stabilization measures.

The Public Information Meeting will include a brief presentation covering the following:

- Project Background
- Goals and Objectives of the Project
- Review of Preliminary Findings
- Review of Stabilization Design Techniques

A question and answer period will be held following the presentation.
